Forde	100% - Fantastic 3 weeks in a row!
Courtenay	95%
Templar	97%

This week’s whole school attendance: 97.5%

Last week’s whole school attendance: 98.8%

RAG Rating		98% and above
		96.1%- 97.9%
		96% and below

*Our whole school attendance target is 96%*

### Home Learning

Please ensure that children are reading at least 4 times a week and it is recorded in their reading records.

Spelling and maths homework will be sent home weekly.

Dear Parents and Carers,

WOW! What a fantastic week of learning in Courtenay class. The children have really been showing our value of perseverance this week.

In English, In English, some of the children within Courtenay Class have been continuing to split off into the Read Write Inc groups in order to develop their reading and writing further. In our English, the children are planning, drafting and editing their independent persuasive letters. It is amazing to see the children really focussing on the quality of their writing and how they can constantly be improving.

### **Star of the Week**

In Maths, we have been continuing to explore multiplication and division of larger numbers. This week, the children have been using their times table

**Tristan**  
For your hard work  
and perseverance in  
WRInc.

knowledge in order to divide 2 digit number by a 1-digit number. It's evident that the children are are trying to exploring a practice different methods to support their learning.

In science, the children have been looking at the different states of matter. This week, we were able to conduct a whole class experiment where the children were able to observe what happens when we apply heat to certain solids and liquids.

Have a lovely weekend,

Miss Harris

### MESSAGE FROM MR O'SULLIVAN

#### **We Believe**

This week, in active worship we have continued discussing the value of persistence in the children's learning. We have focussed on the model of climbing stairs and the feelings we go through when tackling a new task. The children were also invited to reflect on the persistence exhibited by others. It was great to hear how they admire and emulate those around them who exemplify tenacity, recognising that the value of persistence extends beyond All Saints Marsh. The children especially enjoyed looking at famous figures such as Lionel Messi and Albert Einstein who suffered setbacks but showed persistence to overcome their hurdles and go on to achieve wonderful things

#### **We are Stronger Together**

As you will know we held Phonics workshops for parents this week and it was lovely to see those of you who could attend. We understand the challenges of balancing busy schedules and wanting to be as informed as possible. In recognition of this Miss Perry-Bates will be recording a comprehensive video of the workshop, ensuring that all parents have the opportunity to get the information. If you have any questions regarding Phonics teaching and early reading, please do not hesitate to contact Miss Perry-Bates.

#### **We all belong in our School Trust**

You will have seen last week that I spoke about our plans to create a whole school display celebrating reading at the heart of our school. We have received lots of photos but invite you all to contribute a photo of your child immersed in their favourite book, ensuring that every individual is beautifully represented in our display, symbolising the shared love for reading that unites us at the heart of our school. Of course, please feel free to email in the picture so that it can be printed in school.

#### **In realising the possible so that all children can flourish**

We are excited to share that our teachers have been actively engaging in CPD focused on metacognition and the science of learning. By delving into these areas, our trust aims to better understand how children think, learn, and process information. With an emphasis on metacognition, children can develop essential skills like self-awareness and strategic thinking, enabling them to navigate their educational journey with greater success. Look out for more information regarding our 'Optimal Learning Approach' in the coming months.

## DATES FOR YOUR DIARY

2024
