Courtenay	95%
Templar	97%

This week's whole school attendance: 97.5%

Last week's whole school attendance: 98.8%

RAG Rating		98% and above
		96.1%- 97.9%
		96% and below

*Our whole school attendance target is 96%*

### Home Learning

Please read 4x a week.

Please see your child's Home Learning book which comes home every **Friday**

Dear Parents and carers,

Another busy week in Forde class and the children have been blowing me away with their handwriting skills! On the first page of their new English books the Year 1 and Year 2 children have made a particular effort to show off the handwriting we have been practising in our twice-weekly handwriting sessions. The Reception children have also been working hard on their handwriting as they start to write more in their RWI books.

This week I held a parent meeting for Year 1 children to discuss the Phonics Screening Check. I appreciate that the timing may not have been convenient for all parents so am planning on putting together a Teams Video call which I will also record so that I can send it out to all year 1 parents.

Star of the Week:

Leo – for always setting an amazing example with his behaviour!

This week in Maths Year 2 children have begun learning about multiplication and have been doing their 2 times tables in Maths lessons. Year 1 children are focusing on addition and subtraction within 20. Reception children are beginning to learn their number bonds to 10.

A highlight of the week was our Science experiment. Year 1 and Year 2 children devised plans to protect our eggs from cracking when dropped from a height. We invited EYFS children to come and watch and participate as we dropped the eggs – some protected by cotton wool, some with special parachutes and some with a soft landing!

Next Friday is Number Day and we look forward to seeing the children dressed up in number-themed costumes! Check the NSPCC website for costume ideas!

Have a great weekend,

Best wishes,

Mrs Perry-Bates and Miss Rippon

### MESSAGE FROM MR O'SULLIVAN

#### **We Believe**

This week, in active worship we have continued discussing the value of persistence in the children's learning. We have focussed on the model of climbing stairs and the feelings we go through when tackling a new task. The children were also invited to reflect on the persistence exhibited by others. It was great to hear how they admire and emulate those around them who exemplify tenacity, recognising that the value of persistence extends beyond All Saints Marsh. The children especially enjoyed looking at famous figures such as Lionel Messi and Albert Einstein who suffered setbacks but showed persistence to overcome their hurdles and go on to achieve wonderful things

#### **We are Stronger Together**

As you will know we held Phonics workshops for parents this week and it was lovely to see those of you who could attend. We understand the challenges of balancing busy schedules and wanting to be as informed as possible. In recognition of this Miss Perry-Bates will be recording a comprehensive video of the workshop, ensuring that all parents have the opportunity to get the information. If you have any questions regarding Phonics teaching and early reading, please do not hesitate to contact Miss Perry-Bates.

#### **We all belong in our School Trust**

You will have seen last week that I spoke about our plans to create a whole school display celebrating reading at the heart of our school. We have received lots of photos but invite you all to contribute a photo of your child immersed in their favourite book, ensuring that every individual is beautifully

represented in our display, symbolising the shared love for reading that unites us at the heart of our school. Of course, please feel free to email in the picture so that it can be printed in school.

### **In realising the possible so that all children can flourish**

We are excited to share that our teachers have been actively engaging in CPD focused on metacognition and the science of learning. By delving into these areas, our trust aims to better understand how children think, learn, and process information. With an emphasis on metacognition, children can develop essential skills like self-awareness and strategic thinking, enabling them to navigate their educational journey with greater success. Look out for more information regarding our 'Optimal Learning Approach' in the coming months.

## **DATES FOR YOUR DIARY**

**2024**

30.1.24 2.30pm Year 4 Heatree Parent Meeting
