'Building Lifelong Foundations Together'

Attendance

Attendance Matters!

Every Student, Every School, Every Day

Class	Weekly Attendance
Forde	97%
Courtenay	98%
Templar	99% Well done so close!

This week's whole school attendance: 96.4%

Last week's whole school attendance: 97.9%

RAG Rating		98% and above
		96.1% - 97.9%
		96% and below

Our whole school attendance target is 96%

Home Learning

Year 6: Sleep, laugh and enjoy time with special people doing things that make you happy 😊

Year 5: Spellings – please revise the 'a' and 'b' spellings on both the Year 3-4 and Year 5-6

Dear Parents and Carers,

Thank you to Year 5 and Year 6 for this week: it has been such a special week, building up to the SATs with separate Year 6 teaching time each morning and then time together as a whole class in the afternoon. The whole of Templar have been very flexible with adaptations to the timetable and thanks must also go to all the adults in school who have so kindly stepped in to work with children and help with the immense amount of "behind-the-scenes" preparations that need to happen to ensure we are ready for next week. We are really excited about next week 😊

In Science this week, the children learned about how nutrients travel

spelling list. There will be a test next week of a random sample of these words.

around the body using Skittles sweets to demonstrate what happens with the blood! Templar are really curious Historians: our current unit is about Ancient Greece. Our big unit question is “What is the legacy of the Ancient Greeks?” So far, we have considered their impact on Sport, Government, Science and Philosophy and already, we have realised that a great deal of what we think and do today in many aspects of life is influenced by the Ancient Greeks. Fortunately, our awareness of what a valuable contribution women can make has improved significantly since then though!

Star of the Week

The whole of Templar: Y6 for showing such determination and ambition to be successful next week and Y5 for being really flexible, which is great support for their Y6s.

Some reminders for Year 6 next week:

- SATs Breakfast starts at 8.10am
- The government dictates which papers have to be done on which day. We have created a timetable that fits in revision, breaks and the needs of all Year 6 children so the whole school day has been carefully considered. Therefore, please do not book any appointments within the school day next week.

MESSAGE FROM MR O’SULLIVAN

We Believe:

We are Stronger Together:

This week, our focus value has been *compassion*, and it has been wonderful to see how our children have engaged with this through our assemblies and reflections on VE Day. The children listened carefully to stories of courage and sacrifice and showed great empathy as they learned about the importance of remembering those who served. Their thoughtful contributions and respectful attitudes have really demonstrated how they are living out our values in action.

We all belong in our School Trust

We are so proud of our incredible Year 6 pupils who have shown determination, maturity, and resilience in the lead-up to their SATs. Their commitment to learning and their support for one another have been truly commendable. SATs will take place next week, and we would like to remind families that children are welcome to arrive at school from 8:15am each day for a special Year 6 breakfast—an opportunity to relax, chat with friends, and start the day in the right way.

In Removing barriers for all

A big thank you to the REC for hosting our PE sessions this week—what a brilliant success it was! The children thoroughly enjoyed using the space and demonstrated excellent teamwork and sportsmanship throughout. We are so grateful for the continued support from our local community in helping to enrich

the experiences we can offer our pupils.

In realising the possible so that all children can flourish

Finally, a reminder to all Year 4 parents and carers that there will be a meeting on Tuesday 20th May at 3.00pm in Courtenay Class. This session will focus on the upcoming Multiplication Tables Check, what it involves, and how you can support your child at home. We hope to see as many of you there as possible.

Inter School Challenge!

We're excited to be invited to take part in a special inter-school challenge! Winning entries will have their drawings or poems engraved on plaques displayed on the new tree planters along Queen Street, Newton Abbot – a prominent and long-lasting way to showcase their creativity to the whole community.

Queen Street is a key walking route for many of our families heading to school or visiting the shops, cafés and local businesses. In partnership with Devon County Council, Teignbridge have been working to make the area safer, greener and more welcoming. Improvements include widened pavements, new crossings, 20 mph limit, reduced through traffic, new seating and the planting of beautiful Juneberry trees.

The Juneberry trees do more than brighten the street with their wonderful white blossom, gold or coppery coloured leaves, and lush berries – they can also support biodiversity by providing nectar for pollinators, and shelter and food for birds.

We would love for our pupils to take inspiration from the Juneberry trees – either by walking down Queen Street to see them in person or by reading our short Key Stage 2 fact sheet (school children of any age are welcome to enter). Then, we're inviting them to either:

- **Draw their best picture of a Juneberry tree, or**
- **Write a short poem about trees (up to 200 words).**

We ask for all entries to be submitted by **Wednesday 4 June**. A panel consisting of the Queen Street project team will then select seven winning entries from across the participating schools to be featured on the plaques on the wooden tree planters.

Have you seen the new Juneberry trees in Queen Street?

Queen Street, in the centre of Newton Abbot, is now home to 7 Juneberry trees. These trees are currently 2 years old and around 1.8 meters tall. They have green leaves and beautiful white blossom.

Juneberry trees

There are around 20 species of Juneberry tree. The Latin name for this species of Juneberry tree is *Amelanchier arborea*. These Juneberry trees are also known as 'Robin Hill'.

Juneberry trees can grow to around 8 meters in height by the time they are 25 years old. They will provide food and shelter for birds and nectar for pollinators.

Why do we need trees?

Trees are so important for many reasons. As well as looking beautiful, trees can:

- provide food and shelter for thousands of species of wildlife, from mammals and reptiles to birds, butterflies and bees.
- help all living things on our planet by absorbing carbon dioxide and converting it into oxygen. By absorbing carbon dioxide trees also help slow down climate change.
- reduce pollution by helping to clean the air.
- help to keep temperatures cooler on very hot days in urban areas. They can even help to save lives during hot summers!
- reduce flooding by intercepting rainfall and slowing down the effects of a storm.

The changing seasons

Juneberry trees are deciduous, which means they look different depending on the season.

- In spring, the trees burst into life with pink buds unfolding into a beautiful display of creamy-star shaped flowers, and bronze-coloured leaves transition to an emerald green.
- In early summer, the trees will produce lush berries for birds to eat.
- In autumn the leaves will become a stunning gold or coppery colour.
- In winter the leaves will drop and the trees will look bare.
